

## HandyScoot™ Outstanding Design Features

Feature	HandyScoot™ Specification	HandyScoot™ Benefit
Accessories Included	Front light, front basket, front luggage bar	great value for your purchase
Back Axle Width	22" adjustable to 29" with spring loaded nubs	works in small indoor spaces and adjustable for greater stability; nubs make it easier to change width position
Battery Certification	UN. PT III 38.3	safe for airline travel
Battery Charge Location	connected or disconnected	charging the battery while connected to the unit allows you to leave the scooter in your vehicle and just remove the battery for charging
Battery Connection	no external plug; plug embedded into controller	less exposure to the elements; easy to mount and remove
Battery Charge Time	1-2 hours	quick charge causes less down time
Brake Handles	1 (right side)	less parts, less weight and more efficient system
Brake Type	disk	no wear on wheels and quick stopping time
Cables	inside frame	less snags and better protection of the cables
Collapsibility	Steering bar easily folds down; hook lock secures steering column to frame for easy lifting	quicker "break down" design and portability
Distance/Battery Charge	up to 15 miles	long distance, more than most can exhaust in a day
Foot Rests	flat with heel recess	enhances comfort and stability for longer riding. Comfortable use with foot or heel
Frame Content	stainless steel	ss is more resistant to wear, rust, and abrasion, stronger and easily cleaned and maintained
Frame Design	single center bar with 5.5" clearance	easier to lift leg over center bar to mount unit
Handlebar Width	22"	more comfortable ride and operation, especially for larger users
Horn	part of control box	louder for greater awareness
Portability	Less parts to remove: seat and battery. Seat back storage option	quicker "break down" design and versatility
Seat	Deluxe with easier backrest adjustability	larger backrest and thicker seat foam for greater comfort. Adjustability for taller users
Speed	up to 9 mph	can reach destinations quicker
Storage	rear storage option	greater storage capability
Suggested Retail Price	\$2,295	very competitive price
Turning Radius	26"	ability to turn in smaller areas and enhances indoor use
Warranty	2 years all parts	longer purchase protection
Weight Capacity	350 lbs	greater weight capacity
Weight - Total	42 lbs.	includes scooter, battery and seat
Weight - Heaviest Part	29 lbs.	the frame, or the part you lift
